

Environmental Policy Statement

We recognise that our operations have an effect on the local, regional and global environment. As a consequence of this, the management are committed to continuous improvements in environmental performance and the prevention of pollution.

Environmental regulations, laws and codes of practice will be regarded as setting the minimum standards of environmental performance.

In particular we will:

- Implement our policies through a coordinated environmental management system.
- Use environmentally safe and sustainable energy sources to meet our needs. We will invest in improved energy efficiency of products we use and sell.
- Consider the environmental impacts of its products at all stages of their life cycle – from design, to manufacturing, customer use, and final disposal.
- Seek to address its impact on the environment through the adoption of a sustainable procurement policy. We will conserve resources through efficient use and careful planning.
- Maintain that a primary part of its corporate environmental strategy is sustainable waste management and as such recognises its responsibilities to recycle materials where possible.
- Minimize waste, especially hazardous waste, and where possible recycle materials. We will dispose of all waste through safe and responsible methods.
- Work with our suppliers to ensure they recognise and reduce the environmental impact of their products and transportation.
- Implement our policies through guidelines and training.
- Set environmental targets and goals to improve our environmental performance.
- Coordinate route planning and delivery schedules this company seeks to realize the dual benefits and fuel consumption and lower exhaust emissions.
- Conduct an annual self-evaluation of our performance in implementing these principles and in complying with all applicable laws and regulations.

In order to meet these objectives the company requires the active support of all staff and its subcontractors and suppliers. It will therefore institute systems of assessment such that performance is measured on a regular basis. This will include the use of formal and informal audits as part of our ISO 14001 accreditation.

This policy will be reviewed on an at least annual basis. Intermediate reviews may also be undertaken in the light of any changes in legislation, codes of practice or In the light of advancing knowledge.

Tate Consulting Engineers are committed to maintaining and exceeding the ISO 14001 environmental standard.
